Dear Sirs,

Some time ago I purchased of Hartz & Gray, New York City, a coin and stamp value guide, with list of dealers, your name among them.

This book quotes the price of 1853 half dollar without arrow heads each side of date, or rays back of eagle, fifteen dollars, (\$15.00)

Now I have a half dollar of this date, (1853), having arrow heads each side of date, and rays back of eagle.

What would the premium be  
if any - on this coin?

and in what way  
should it be done up to  
send?

Waiting an early reply.  
I remain,

Yours Respectfully,

Minnie E. Feather,
